Contacts: Hillary Bogner MD MSCE & Patricia Scott
FOCUS Medical Student Fellowship

• Offers between 3 and 6 awards annually
  – Range of study in women’s health, defined broadly; one award may be specific to CV research
  – Clinical, basic science or community-based research project

• Open to ALL (men and women) medical students who have completed clinical clerkships
  – Majority begin in summer or fall after completing 3rd year - some flexibility

• Funding for 6 months of mentored, intensive women’s health research
  – Months do not need to be continuous; can be broken up
  – Student award totals $7500 ($1250 per month)
  – Penn faculty mentor on one of the fulltime academic tracks; students identify mentor prior to applying; consistent meetings
  – Three research/networking luncheon-meetings to discuss projects and career goals

• Fulfills scholarly pursuit curriculum requirement
  – Potential to apply toward a Year Out and/or Women’s Health Scholar Certificate
